

VERTEX SEALER POLISH

DESCRIPTION

VERTEX is new generation sealer ideally suited for use on polished concrete surfaces or commercial floors and unsealed floors for added shine.

VERTEX is formulated from selected waxes and resins which when used according to directions will give extended sealer life, allowing for greater economy for maintenance contractors.

On unsealed floors VERTEX will reduce black heel marking and assist in easier maintenance.

DIRECTIONS

Remove any existing sealers using GYPSIE polish stripper.

If a chemical resistant floor sealer is required, apply FOUNDATION sealer, following application directions on the pack.

Apply 4 or more, thin coats of VERTEX using a clean mop or applicator and clean bucket.

All coats must be applied across the direction of the previous coat to ensure even application.

Allow each coat to dry thoroughly before attempting re-coating or buffing/burnishing.

MAINTENANCE

Dust mop as necessary.

Mop or auto-scrub as required.

Using GP DETERGENT or ACCENT appropriately diluted.

When gloss requires enhancing spray buff with GLOSS-UP or auto-scrub with either HIGHLIGHT or GLOSS-UP.

FIRST AID & STORAGE

Refer to safety data sheet.

PACKS:

5L, 20L & 200L

COLORO VERTEX SEALER POLISH

This Product Data Sheet (PDS) summarises our best knowledge of the product, including how to use and apply the product based on the information available at the time. You should read this PDS carefully and consider the information in the context of how the product will be used, including in conjunction with any other product and the type of surfaces to, and the manner in which, the product will be applied. Our responsibility for products sold is subject to our standard terms and conditions of sale. Chemical House does not accept any liability either directly or indirectly for any losses suffered in connection with the use or application of the product whether in accordance with any advice, specification, recommendation, or information given by it.
